

THE PROCESS OF GETTING AN EXQUISITE PORTRAIT PAINTING

1. PHOTO ASSESSMENT

Before I start painting, we will go through a Photo assessment to pick out the best photo based on your preference. (at least 5x photos) Different angles will give out different feelings and reflect different personalities.

2. PHOTO-TAKING

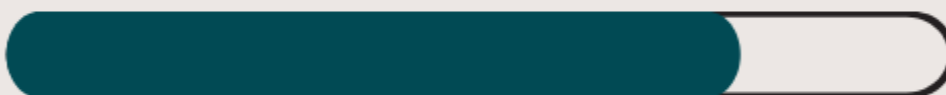

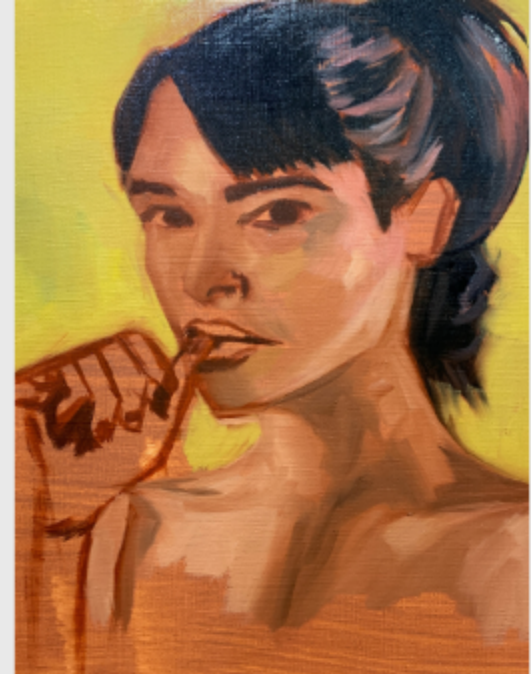

To make the best out of the painting, I like to meet you over a coffee before taking a photo for you. Otherwise, I will advise you on how to take a qualified photo.

3. CONFIRM FROM DRAFT

Once the photo is confirmed, I will provide 2-3 small drafts for you to choose from. This is to set the mood and mannerism of the painting that fits your intended style.

I will show the painting in progress when it is half done. If you like more progressing work to be shared, you may request.

5. VARNISH BEFORE SHIPPING

Once the painting is completed, you will receive the photo of the final painting before I apply varnish to protect the color.
